Packing list

Instruction

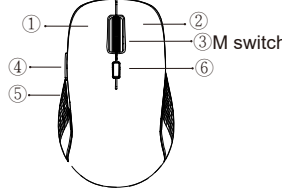

This smart mouse is a next-generation mouse featuring HyperWheel technology, allowing you to scroll through countless lines with a single spin.

It also features the Smart Ring application, providing a smarter and more intuitive user experience that helps save time and improve productivity.

The mouse supports 2 connection modes: 2.4GHz wireless, and Bluetooth. In Bluetooth mode, it can pair with up to 3 devices simultaneously, allowing you to switch between them effortlessly.

Equipped with a high-precision optical sensor, the mouse supports 5 DPI levels (800/1200/1600/2400/4000), for smooth and accurate cursor control.

How to use

Bluetooth pairing

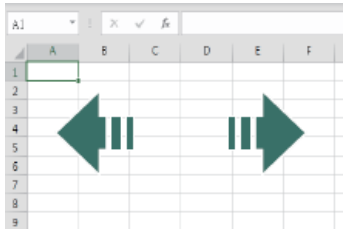

- BT1: In Bluetooth mode, the blue indicator flashes rapidly. Select "Mouse BT1" on your device to pair. Once paired, the indicator turns off.
- BT2: Press and hold Buttons ③ + ④ for 5 seconds to switch to BT2. The green indicator flashes rapidly. Select "Mouse BT2" to pair.
- BT3: Press and hold Buttons ③ + ④ for another 5 seconds to switch to BT3. The aqua indicator flashes rapidly. Select "Mouse BT3" to pair.
- After successful pairing, the mouse is ready to use.

Reconnect Bluetooth

If the Bluetooth connection is abnormal, press and hold Buttons ④ + ⑤ for 5 seconds until the indicator flashes rapidly. Then pair the mouse again.

Horizontal scrolling

Hold down the ④ key while scrolling the mouse wheel to switch from vertical to horizontal scrolling, making it easier to navigate wide spreadsheets, timelines, or large web pages.

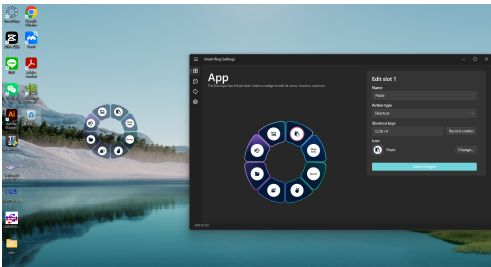

Software download

Press and hold Buttons ① + ⑤ for 5 seconds to open the Smart Ring app download page. Install the app to start using Smart Ring features.

Install the app to get started.

Dpi settings

Use the Smart Ring app to customize the DPI level, language, and other settings.

Swap Smart Key / Middle switch Function

Press and hold Buttons ② + ④ for 5 seconds to swap the functionalities of the Smart Key and Middle switch.
